## A message from the Secretary

Assam Jatiya Bidyalay introduced the HS courses in 2009 with a view to imparting concept based knowledge and skills to the students to build a strong foundation for their higher studies. Since then, AJB has been leaving no stone unturned to achieve this objective.

With a team of experienced and dedicated faculties, meticulously planned academic programme, well-equipped infrastructure, continuous monitoring and evaluation, we have been able to create a lively and healthy academic environment, which is distinctly different from others.

From the 2023-2024 academic session, we have introduced an integrated teaching and coaching programme under the banner of BEACON to help students prepare for various competitive/entrance exams like NEET, JEE and the CUET under one roof.

Our endeavour to enrich this environment further will go on.

## CUET (UG) Classes

### WHY CUET ?

Admissions to central and state government colleges and universities for various undergraduate degree programs (B.Sc, B.A, B.com, BMS, BBA etc) are no more dependent only on the boards marks at higher secondary level. Admissions to these institutions now also look into student's performance in Common University Entrance Test (CUET) organised by National Testing Agency (NTA). The National Testing Agency has been mandated by the Ministry of Education and UGC to conduct the Common University Entrance Test (CUET) for admission into Undergraduate Programmes in Central Universities under the Ministry of Education, and other participating Universities / Institutions / Organizations / Autonomous Colleges. The CUET (UG) provides a single window opportunity to students seeking admission in any of the Central Universities (CUs) or other participating organisations (including State Universities, Deemed and Private Universities) across the Country.

### CUET EXAM PATTERN:

All Questions are of MCQ pattern

Exam would be conducted in Hybrid mode

[Computer based test (CBT) or pen & paper]

Exam would be conducted in 13 languages including English and Assamese

There are three sections in the paper:

Section 1 - Language test (33 different options)

Section 2 - Domain test (27 subjects option)

Section 3 - General test

### WHY CUET CLASSES ?

We, at Assam Jatiya Bidyalay after understanding the importance of CUET for admission to different programs at undergraduate level, felt the need of coaching our students in this new and important exam. We have collaborated with Career Spark, a leading career mentoring organisation based in Guwahati, to impart this specially curated course for our students.

In this course, students will be trained on Section 1 (English Language Test) and Section 3 (General Ability Test). Coaches would conduct sessions on English Language, Logical Reasoning and Quantitative Aptitude needed for the above two sections. CUET classes will be included in the regular class routine. Students would be provided the following in the course:

1. Application support for CUET
2. Selection of Domain Test and Mock Test for the Domain Tests
3. Study materials (handouts) for Section 1 and Section 3
4. Mock Test for Section 1 and Section 3
5. Chapter Test for all three sections
6. Access to online practice platform of Career Spark
